

QA Scorecard

AI for Accessibility and Cutting-Edge UX · Cavendish Venues · 15 Sept 2026

Run this against your Round 1 build, then your Round 2 build. Score each check pass or fail.

Do not fix as you go. Note it and move on. The delta between the two rounds is the point.

Seven of the ten are not fully machine detectable. Three are. That gap is why a human still runs QA.

NAME	TOOL USED	TABLE / TEAM	
		ROUND 1 pass · fail	ROUND 2 pass · fail
01 Accessible names HUMAN		☐ P ☐ F	☐ P ☐ F
Tab to every icon-only button and row action. The announcement names the action and the transaction, not “button”.			
02 Visible focus MACHINE PARTIAL		☐ P ☐ F	☐ P ☐ F
Tab through the whole page. Every focusable element shows a clear focus style. Focus never disappears.			
03 Keyboard reachable HUMAN		☐ P ☐ F	☐ P ☐ F
Complete a Move money without touching the mouse. Every control is reachable and operable from the keyboard.			
04 Colour is never the only signal HUMAN		☐ P ☐ F	☐ P ☐ F
Set the OS to grayscale, or a simulator to Deuteranopia. Posted, Pending and Declined still readable. Required is a word.			
05 4.5:1 text contrast MACHINE		☐ P ☐ F	☐ P ☐ F
Body text meets 4.5:1 against its background. Large text and UI components meet 3:1.			
06 24 by 24 touch targets MACHINE		☐ P ☐ F	☐ P ☐ F
Row actions and small controls measure at least 24 by 24 CSS pixels. Note anything under 44 by 44.			
07 Focus trapped and returned HUMAN		☐ P ☐ F	☐ P ☐ F
Open the Move money modal. Focus moves into it, stays inside it, and returns to the trigger on close or Escape.			
08 Motion respects reduced-motion HUMAN		☐ P ☐ F	☐ P ☐ F
Load with reduced motion on. Nothing moves, refreshes, or animates before the user asks for it.			
09 Plain-language errors that tell you what to do HUMAN		☐ P ☐ F	☐ P ☐ F
Trigger insufficient funds. The message names what happened and what to do next. No “Payment Failed”, no bare “Error”.			
10 Session that warns before it ends HUMAN		☐ P ☐ F	☐ P ☐ F
Idle for the timeout. The app warns, tells you your typed values are safe, and offers to stay signed in.			

ROUND 1 SCORE

___ / 10

ROUND 2 SCORE

___ / 10

DELTA

+ ___

The delta is the point. Not the absolute number. The gap is what a rules file plus a plain-language brief buys you.
